

Why cashless?

Traditional money is so 1995. Howler Cashless is the modern, high-tech answer to easy transacting. It eliminates queuing at ATMs, carrying your wallet around, and battling connectivity issues. Plus it's so much safer.

How does it work?

Tap and go - it's that simple. The vendor or bartender will show you how much credit you have left after each tap.

How do I topup?

First prize: online. A pre-loaded wristband means your credit is applied to your card or wristband as you walk through the entrance, leaving more time for fun. And, if you need more moola in the moment, topup with credit and debit cards at a physical Howler topup station inside the event.

What about leftover money?

What's yours is yours. After the event you can visit our website and cashout your un-spent funds. They'll go straight into your bank account within 3 working days. (Or, you can enable auto-cashout if you've topped up online to get your money even faster!)

**** NO CASH WILL BE ACCEPTED AT THIS EVENT WHATSOEVER**
